

**IN THE UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF TEXAS  
MARSHALL DIVISION**

DOCUMENT SECURITY SYSTEMS,  
INC.,

Plaintiff,

v.

EVERLIGHT ELECTRONICS CO., LTD.,  
and EVERLIGHT AMERICAS, INC.

Defendants.

Civil Action No. \_\_\_\_\_

**JURY TRIAL DEMANDED**

**COMPLAINT FOR PATENT INFRINGEMENT**

This is an action for patent infringement arising under the Patent Laws of the United States of America, 35 U.S.C. § 1 *et seq.* in which Document Security Systems, Inc. (“DSS” or “Plaintiff”) makes the following allegations against Defendants Everlight Electronics Co., Ltd. (“Everlight Electronics”) and Everlight Americas, Inc. (“Everlight Americas”) (collectively “Everlight” or “Defendants”).

**PARTIES**

1. Document Security Systems, Inc. is a publicly-traded New York corporation, and has a place of business in Plano, Texas. Founded in 1984, DSS is a global leader in brand protection, digital security solutions and anti-counterfeiting technologies.

2. In November 2016, DSS acquired a portfolio of patents covering technologies used in Light-Emitting Diode (“LED”) lighting products, including the patents-in-suit. The patents in this portfolio were originally assigned to Agilent Technologies, Inc. and/or the successors of its LED business. Since its recent acquisition of these patents, DSS has worked to

expand its business efforts regarding LED technology. DSS is pursuing both licensing and exploitation of this technology acquisition, and is establishing those activities within its Plano location.

3. On information and belief, Everlight Electronics Co., Ltd., is a corporation organized and existing under the laws of Taiwan with its principal place of business at No. 6-8, Zhonghua Rd., Shulin Dist., New Taipei City, Taiwan 23860. Upon information and belief, Everlight manufactures light-emitting diode (“LED”) products in Taiwan and, through its subsidiary, Defendant Everlight Americas, Inc., has sales offices in the State of Texas and elsewhere in the United States.

4. On information and belief, Everlight Americas, Inc. is a Delaware corporation with its principal place of business at 3220 Commander Dr., Suite 100, Carrollton, Texas, 75006. Upon information and belief, Everlight Americas sells and/or offers for sale nationwide LED products manufactured by Everlight Electronics, including in the State of Texas and in this judicial district. Defendant Everlight Americas can be served through its registered agent, Bernd Kammerer, 3220 Commander Dr., Suite 100, Carrollton, Texas, 75006.

### **JURISDICTION AND VENUE**

5. This action arises under the patent laws of the United States, Title 35 of the United States Code. Accordingly, this Court has subject matter jurisdiction under 28 U.S.C. §§ 1331 and 1338(a).

6. This Court has personal jurisdiction over Defendants in this action because, among other reasons, Defendants have committed acts within the Eastern District of Texas giving rise to this action and have established minimum contacts with the forum state of Texas, including by establishing Everlight America’s principal place of business within this District.

Defendants directly and/or through subsidiaries or intermediaries (including distributors, retailers, and others), have committed and continue to commit acts of infringement in this District by, among other things, making, using, importing, offering for sale, and/or selling products and/or services that infringe the patents-in-suit. Thus, Defendants have purposefully availed themselves of the benefits of doing business in the State of Texas and the exercise of jurisdiction over Defendants would not offend traditional notions of fair play and substantial justice. Everlight Americas is registered to do business in the State of Texas, and has appointed Bernd Kammerer, 3220 Commander Dr., Suite 100, Carrollton, Texas, 75006 as its agent for service of process.

7. Venue is proper in this District under 28 U.S.C. §§ 1391 (b)-(c) and 1400(b) because Defendants are subject to personal jurisdiction in this District, have transacted business in this District and have committed acts of patent infringement in this District.

14. On information and belief, Defendants make, use, offer for sale, sell, and/or import in the United States products and/or services that infringe various claims of the '771 Patent, and continues to do so. By way of illustrative example, Defendants' infringing products include without limitation, all versions and variations, including predecessor and successor models, of its PLCC Top View SMD LED, 2214 package series, 3020 package series, 3232 package series, 3527 package series, 3528 package series, 5050 package series, and 7450 package series. Defendants' infringing products also include products, e.g., light bulbs, displays and fixtures that contain at least one infringing LED product. Defendants' infringing products are collectively referred to hereinafter as "'771 Accused Instrumentalities."

15. On information and belief, Defendants have directly infringed and continue to directly infringe the '771 Patent by, among other things, making, using, offering for sale, selling, and/or importing the '771 Accused Instrumentalities. On information and belief, such products and/or services are covered by one or more claims of the '771 Patent's including at least claims 1 to 8 because they contain each element of those claims.

16. By making, using, offering for sale, selling, and/or importing the '771 Accused Instrumentalities infringing the '771 Patent, Defendants have injured DSS and are liable to DSS for infringement of the '771 Patent pursuant to 35 U.S.C. § 271(a) directly and/or under the doctrine of equivalents.

17. In addition, Defendants are actively inducing others, such as their customers and end users of Accused Instrumentalities, services based thereupon, and related products and/or processes, to directly infringe each and every claim limitation, including without limitation claims 1 to 8 of the '771 Patent, in violation of 35 U.S.C. § 271(b). Defendants are knowingly inducing their customers and/or end users to directly infringe the '771 Patent, with the specific intent to encourage such infringement, and knowing that the induced acts constitute patent infringement. Defendants' inducement includes, for example, providing technical guides, product data sheets, demonstrations, software and hardware specifications, installation guides, and other forms of support that induce their customers and/or end users to directly infringe the '771 Patent. The '771 Accused Instrumentalities are designed in such a way that when they are used for their intended purpose, the user infringes the '771 Patent.

Defendants know and intend that customers that purchase the '771 Accused Instrumentalities will use those products for their intended purpose.

18. Defendants have been aware of the '771 Patent and of its infringement as of a date no later than the date they were served with this Complaint in this action. To the extent facts learned in discovery show that Defendants' infringement of the '771 Patent is or has been willful, or to the extent that Defendants' actions subsequent to the filing of this Complaint—such as their behavior as litigants or their failure to take remedial actions—render their infringement egregious, DSS reserves the right to request such a finding at time of trial.

19. As a result of Defendants' infringement of the '771 Patent, DSS has suffered monetary damages in an amount adequate to compensate for Defendants' infringement, but in no event less than a reasonable royalty for the use made of the invention by Defendants, together with interest and costs as fixed by the Court.
